

COMPLETE BUSINESS IT HEALTH CHECK

WHAT YOU WON

You won a Relytech Business IT Health Check. We will review the general health of your business technology and highlight the biggest risks, weak points and opportunities for improvement.

WHAT IS INCLUDED

- One business and one primary site/environment
- Up to 90 minutes of assessment time
- High-level review of endpoints, backups, network, security, Microsoft 365 and server visibility where access is available
- Plain-language recommendations summary

PRIZE TERMS

- Designed as a diagnostic review, not a repair session.
- Limited to up to 25 users/endpoints for the free assessment; larger environments may receive a representative sample review.
- No hardware, licences, installations, data recovery, migrations or third-party fees are included.
- Onsite work is subject to Relytech's normal service area and scheduling; otherwise the review may be delivered remotely where practical.
