

FREE CYBER RISK ASSESSMENT

WHAT YOU WON

You have won a complimentary Cyber Risk Assessment for your business.

Our cybersecurity team will review a defined scope of your internet-facing systems and provide a clear, easy-to-understand risk summary highlighting what appears healthy and what may require attention.

WHAT IS INCLUDED

- One business assessment
- One primary domain, plus up to five authorised internet-facing public IP addresses or assets
- Non-destructive external vulnerability scan
- Plain-language findings summary with prioritised risks and recommendations

PRIZE TERMS

- The winner must have the authority to authorise security scanning of the listed systems and assets.
- The assessment is non-intrusive and does not include exploitation, penetration testing, internal network scanning, or remediation services.
- Findings are based on a point-in-time review and do not guarantee that the environment is free from vulnerabilities.
- The prize must be redeemed within 30 days of winning.
- Assessment scheduling is subject to reasonable technical and resource availability.
