

WI-FI & NETWORK HEALTH CHECK

WHAT YOU WON

You won a free Wi-Fi & Network Health Check. We will inspect the basics of one business network and help identify common causes of slow, unstable or poorly secured connectivity.

WHAT IS INCLUDED

- One business site
- Up to 90 minutes of assessment time
- High-level review of core network, internet handoff and up to five Wi-Fi access points
- Basic coverage, configuration and security observations

PRIZE TERMS

- Does not include cable certification, rewiring, new configuration deployment, hardware replacement, ISP charges or specialist radio surveys.
- No roof work, lifts or working-at-heights activities are included.
- Onsite service is subject to Relytech's normal service area and safe access; an equivalent remote review may be used where appropriate.
- Findings are based on conditions visible during the assessment.
